Nov 18, 2014

This is a roundup of product news and announcements for travel SYSTEMS in tourism and hospitality for November 2014.

### **Tuesday 18 November 2014:**

#### Rome2Rio and RouteRank get Concur boost

- Both companies have integrated with Concur so that business travel managers and corporate agencies can plan door-to-door trips. Customers will be able to receive a request for an itinerary sent back through the Concur system prior to booking.

#### Travelport gives Cabforce Marketplace distribution

- The Finland-based taxi and airport transfer booking system will now be available to all Travelport-connected agencies worldwide. The application was originally available to agencies in the UK and South Africa.

#### Conferma secures Mastercard integration

- The virtual card number technology provider has integrated Mastercard In Control system into the Conferma travel payment network. Mastercard corporate customers will now be able to link to corporate travel companies and online travel agencies through at the point of sale.
